

CHAPTER V

CONCLUSION & SUGGESTION

5.1 Conclusion

Based on the analysis in the previous chapter the researcher draws the following conclusions. First, the result of the analysis of idiomatic expression shows that there are 4 types of idiomatic expressions found in the movie. They are phrasal verb (14), idiom with adjectives as keywords (6), idiom with nouns as keywords (1) and idiom with verbs as keywords (4). The most dominant idiomatic expressions found in the movie is phrasal verb.

The second conclusion is the result of translation method analysis. It shows that there are 4 methods of translation that are used in translating the movie script from English to Indonesia. They are communicative translation (18), literal translation (2), idiomatic translation (2) and word for word translation (3). The most dominant method of translation used in translating the movie script is communicative translation.

5.2 Suggestion

After doing the study, the researcher is ready to make various recommendations. First, learning English is not only studying grammar, vocabulary, and pronunciation, but also studying and understanding

idiomatic expressions. By understanding idiomatic expression, student or non-English speaking person could understand deeply what is being expressed by native speakers in their utterances and dialogs. The researcher hopes the next researcher, especially those who discuss idiomatic expression are able to give big contribution in terms of English education.

It is expected that the next researcher finds better findings and results.
