# LAMPIRAN

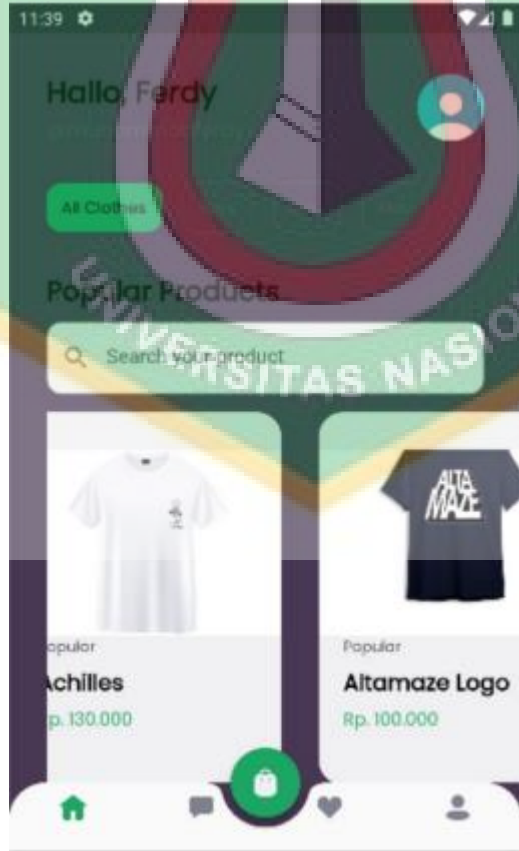

The screenshot shows an IDE window with the following code in the editor:

```
lib > pages > detail_chat_page.dart
} <- #141-188 Widget chatInput()

Widget content() {
  return ListView(
    padding: EdgeInsets.symmetric(
      horizontal: defaultMargin,
    ),
    children: const [
      ChatBubble(
        isSender: true,
        text: 'Hi, This item is still available?',
        hasProduct: true,
      ), <- #196-200 ChatBubble
      ChatBubble(
        isSender: false,
        text: 'Good night, This item is only available in size L and XL',
      ), <- #195-205 children: const
    ], <- #195-205 children: const
  ); <- #191-206 return ListView
} <- #190-207 Widget content()

return Scaffold(
  backgroundColor: backgroundColor1,
  appBar: header(),
  bottomNavigationBar: chatInput(),
);
```

The Explorer panel on the left shows a project named 'ALTAMAZEE' with a 'home' directory containing various Dart files like 'home\_page.dart', 'main.dart', 'product\_model.dart', 'message\_model.dart', 'detail\_chat\_page.dart', 'message\_service.dart', and 'product\_page.dart'. The terminal at the bottom shows the command prompt 'PS C:\Users\muham\altamazee>'.
