# CHAPTER V
# CONCLUSION & SUGGESTION

## 1.1 Conclusion

The researcher makes the following conclusions based on the examination in the preceding chapter. conclusions. First, the results of the analysis of the types of cynicism theory show that there are 9 types of cynicism including Negative Assumptions (18) , Defensive Cynicism (11), Paranoia Cynicism (5), Pessimism (3), Sour Grapes (2), Anticonformity (2), Nihilism (1), Postmodernism (6), Skepticism (2).were among the 50 table. data the researcher acquired from the teks dialog a novel the hunger games are 4 types. They are : Negative assumption (9). Defensive cynicism (8), Pessimism (1), Paranoia (2). The most dominant Types of cynicism found in a novel the Hunger games are Negative assumption.

The second conclusion is the result of translation method analysis. Its shows that there are 2 method of translation that are used in data analysis from the novel the *Hunger Games* from English to Indonesia. They are *Literal Translation* technique (7) , *Compensation* (13). The most dominant method of translation used in translating the text novel is Compensation.

## 1.2 Suggestion

After completing this analysis, I give some suggestions for translators. When translating novel texts, the translator should first read it first, then understand and understand it to be learned in the procedure of translation theory. A student who wants to become a translator must pay attention to the translation procedures that will be used when translating words, phrases, clauses, or sentences. The information in the text can be conveyed easily to the reader.
