#### ARTICLE 11

##### STORAGE

The Parties shall store provided CMI in a manner that ensures access only by those individuals who have been authorized access pursuant to Articles 7 and 16.

ARTICLE 12  
SECURITY REQUIREMENTS DURING TRANSMISSION OF CMI

The minimum requirements for the security of CMI during transmission shall be as follows:

(a) Classified documents and media

- (i) Documents and media containing CMI shall be transmitted in double, sealed envelopes with the innermost envelope bearing only the security classification of the documents or media and the organizational address of the intended receiving Competent Authority and the outer envelope bearing the organizational address of the receiving Competent Authority, the organizational address of the originating Competent Authority, and the registry number, if applicable.
- (ii) No indication of the security classification of the enclosed documents or media shall be made on the outer envelope. The sealed envelope shall then be transmitted according to the prescribed regulations and procedures of the Originating Party.
- (iii) Receipts shall be prepared for packages containing classified documents or media that are transmitted between the Parties and a receipt for the enclosed documents or media shall be signed by the final receiving Competent Authority and returned to the originating Competent Authority.

(b) Classified equipment

- (i) Classified equipment shall be transmitted in sealed, covered vehicles or be securely packaged or protected in order to prevent identification of its details, and kept under continuous control to prevent access by unauthorized persons.
- (ii) Classified equipment that must be stored temporarily awaiting shipment shall be placed in a storage area that provides protection commensurate with the level of security classification of the equipment. Only authorized personnel shall have access to the storage area.

(iii) Receipts shall be obtained on every occasion when classified equipment changes hands en route.

(iv) Receipts shall be signed by the final receiving Competent Authority and returned to the originating Competent Authority.

(c) Electronic transmissions

CMI transmitted by electronic means shall be protected during transmission using encryption appropriate for the level of security classification of the CMI. Information systems processing, storing, or conveying CMI shall receive security accreditation by the appropriate authority of the Party employing the system.

ARTICLE 13  
DESTRUCTION

1. The Parties shall destroy classified documents and media by burning, shredding, pulping, or other means preventing reconstruction in whole or in part of provided CMI.

2. The Parties shall destroy classified equipment beyond recognition or modify it so as to preclude reconstruction in whole or in part of provided CMI.

ARTICLE 14  
REPRODUCTION

When the Parties reproduce classified documents or media, they shall also reproduce all original security markings thereon. The Parties shall place such reproduced classified documents or media under the same controls as the original classified documents or media. The Parties shall limit the number of copies to that required for official purposes.

ARTICLE 15  
TRANSLATION

The Parties shall ensure that all translations of provided CMI are done by individuals with Personnel Security Clearances pursuant to Articles 7 and 16. The Parties shall keep the number of copies to a minimum and control the distribution. Such translations shall bear an appropriate security classification and a suitable notation in the language into which it is translated indicating that the document or media contains CMI of the Originating Party.

ARTICLE 16  
RELEASE OF CMI TO CONTRACTORS

Prior to the release to a contractor (including a subcontractor, whenever the term is used herein) of any CMI received from the Originating Party, the Receiving Party shall take appropriate measures, subject to its national laws and regulations in force, to ensure that:

- (c) all individuals whose official duties require access to the CMI have Personnel Security Clearances;
- (d) a Personnel Security Clearance is determined in the same manner as provided for in Article 7;
- (e) appropriate procedures are implemented to provide assurance that the criteria referred to in paragraph 3 of Article 7 have been met with respect to any individual granted access to the CMI;
- (f) all individuals having access to the CMI are informed of their responsibilities to protect it;
- (g) initial and periodic security inspections are carried out by the Receiving Party at each contractor facility where the CMI is stored or accessed to ensure that it is protected as required in this Agreement;
- (h) access to the CMI is limited to those persons whose official duties require such access;
- (i) a registry of individuals who have Personnel Security Clearances and are authorized to have access to the CMI is maintained at each facility;
- (j) qualified individuals are appointed who shall have the responsibility and authority for the control and protection of the CMI;
- (k) the CMI is stored in the same manner as provided for in Article 11;

- (l) the CMI is transmitted in the same manner as provided for in Articles 9 and 12;
- (m) classified documents and media and classified equipment are destroyed in the same manner as provided for in Article 13;
- (n) classified documents and media are reproduced and placed under control in the same manner as provided for in Article 14; and
- (o) translation of the CMI is done and copies are treated in the same manner as provided for in Article 15.

ARTICLE 17  
LOSS AND COMPROMISE

The Originating Party shall be informed immediately of all losses or compromises as well as possible losses or compromises of its CMI and the Receiving Party shall initiate an investigation to determine the circumstances. The results of the investigation and information regarding measures taken to prevent recurrence shall be forwarded to the Originating Party by the Receiving Party.

ARTICLE 18  
VISITS BY SECURITY REPRESENTATIVES

Implementation of the foregoing security requirements can be advanced through reciprocal visits by security representatives of the Parties. Accordingly, security representatives of each Party, after prior consultation, shall be permitted to visit the other Party to discuss security procedures and observe their implementation in the interest of achieving reasonable comparability of their respective security systems on mutually agreed venues and in a mutually satisfactory manner. Each Party shall assist the security representatives in determining whether CMI provided by the other Party is being adequately protected.

ARTICLE 19  
COSTS

Each Party shall bear its own costs incurred in implementing this Agreement, subject to its national laws and regulations in force and within the limit of the budgetary appropriations of the Party.

ARTICLE 20  
DISPUTE SETTLEMENT

1. Any disputes concerning the interpretation or application of this Agreement shall be settled only by consultation between the Parties.

2. During the settlement of disputes under paragraph 1, the Parties shall continue to protect provided CMI pursuant to this Agreement.

#### ARTICLE 21

##### ENTRY INTO FORCE, AMENDMENT, DURATION AND TERMINATION

1. This Agreement shall enter into force on the latter of the dates of the written notifications through the diplomatic channel by which the Parties confirm that their respective legal requirements for its entry into force have been fulfilled.

2. This Agreement may be amended at any time by mutual written consent of the Parties.

3. This Agreement shall remain in force for a period of one year and shall be automatically extended annually thereafter unless either Party notifies the other in writing through the diplomatic channel ninety days in advance of its intention to terminate the Agreement.

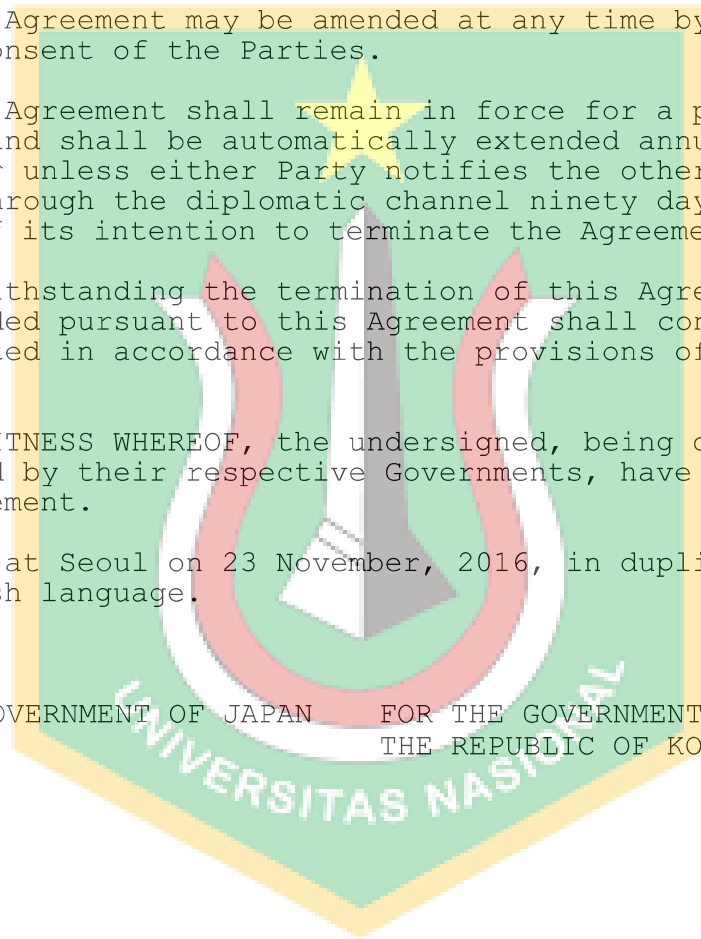

4. Notwithstanding the termination of this Agreement, all CMI provided pursuant to this Agreement shall continue to be protected in accordance with the provisions of this Agreement.
